To: Users of the Aeronautical Information Service (AIS) 28 Day NASR Subscription

From: Aeronautical Information Services

Subject: Comma-Separated Values (CSV) Change Report files

A compare is done of each CSV file from one 28-day cycle to the next. If there were any updates done to the data contained in a CSV during the 28-day period, a Change Report file will be generated. The naming convention of the Change Report file adds “\_CHG\_RPT” to the CSV file name. (e.g., APT\_ATT.csv > APT\_ATT\_CHG\_RPT.csv). Change Report files are zipped together using a naming convention based on the Effective Dates being compared. (e.g., 21\_Mar\_2024\_CSV-18\_Apr\_2024\_CSV.zip)

The screenshot shows a file explorer window titled "21\_Mar\_2024\_CSV-18\_Apr\_2024\_CSV.zip - SecureZIP". The window displays a list of CSV files with columns for Name, Size, Type, Modified, Attributes, and Folder. The files are all CSV files, modified on 3/20/2024 at 7:55 AM, and have attributes set to "N". The files are listed in alphabetical order by name.

Name	Size	Type	Modified	Attributes	Folder
APT_ATT_CHG_RPT.csv	4,110 B	CSV File	3/20/2024 7:55 AM	N	N
APT_BASE_CHG_RPT.csv	553 KB	CSV File	3/20/2024 7:55 AM	N	N
APT_CON_CHG_RPT.csv	60 KB	CSV File	3/20/2024 7:55 AM	N	N
APT_RMK_CHG_RPT.csv	90 KB	CSV File	3/20/2024 7:55 AM	N	N
APT_RWY_CHG_RPT.csv	24 KB	CSV File	3/20/2024 7:55 AM	N	N
APT_RWY_END_CHG_RPT.csv	194 KB	CSV File	3/20/2024 7:55 AM	N	N

NAV_RMK_CHG_RPT.csv	4,243 B	CSV File	3/20/2024 7:55 AM	N	N

Selected 0 files, 0 bytes      Total 28 files, 1,238 KB      v14.50.0010

The change report CSV file contains all the columns that are in the original CSV file plus three appended change reporting columns - File, Action, and Mods.

Example from APT\_ATT\_CHG\_RPT.csv

```
"EFF_DATE","SITE_NO","SITE_TYPE_CODE","STATE_CODE","ARPT_ID","CITY","COUNTRY_CODE","SKED_SEQ_NO","MONTH","DAY","HOUR","File","Action","Mods"  
"2024/03/21","03178","A","FL","6FD7","ELLENTON","US","1","UNATNDD","","","2","Deleted",""  
"2024/03/21","03234.2","C","FL","F15","HOLLY HILL","US","1","ALL","MON-FRI","0900-1800","1","Modified","MONTH DAY HOUR"  
"2024/04/18","03234.2","C","FL","F15","HOLLY HILL","US","1","UNATNDD","","","2","Modified","MONTH DAY HOUR"  
"2024/04/18","24711.05","H","TX","TA72","SAN ANTONIO","US","1","UNATNDD","","","2","Added",""
```

The File column contains either 1 or 2. File 1 is always the first Cycle date listed in the name of the zip. File 2 is the second Cycle date listed in the name of the zip. In the case of 21\_Mar\_2024\_CSV-18\_Apr\_2024\_CSV.zip, File 1 is 21\_Mar\_2024 effective date and File 2 is 18\_Apr\_2024 effective date. Action is either Added, Deleted, or Modified. “Added” and “Deleted” have only one row of data which is the data being either deleted or added to File 2. “Modified” on the other hand, has two rows. The row of data as it was in File 1 and the corresponding row of data as it is in File 2. The Mods column is only populated if the Action is “Modified” and will contain a list of all columns that were updated during the 28-day period.

Feedback greatly appreciated. Please enter your feedback in the Aeronautical Information Portal. <https://nfdc.faa.gov/nfdcApps/controllers/PublicSecurity/nfdcLogin>
