This schedule is for minor revisions only.
 Bold text denotes book; regular text denotes Enroute Change Notice (ECN) or Terminal Change Notice (TCN). Asterisk (*) indicates date adjustment due to holiday.

(1) All aeronautical data changes in Germany must be submitted by 56 days prior to effective date. For example, the cut-off for a 20 March publication for changes in Germany would be close of business 23 January.

CUT-OFF DATES FOR NEW PROCEDURES OR MAJOR REVISIONS

Major revisions are those that require the addition of, or the moving of symbols, tracks, or features. For example, adding arresting gear, changing missed approach tracks, moving obstacles, or adding overruns or taxiways are major revisions.

For new host country procedures, information must be received at NGA STL by close of business 41 days prior to effective date. For example, the cut-off for a 20 March publication would be close of business 7 February.

For U.S. DoD developed procedures, information must be received at NGA STL by close of business 70 days prior to effective date. For example, the cut-off for a 20 March publication would be close of business 9 January.
